

FY23 Congressionally Directed Spending

Senator Hickenlooper is accepting Congressionally Directed Spending (CDS) requests for Colorado projects in Fiscal Year 2023 (FY23). Part of the broader appropriations process, CDS is a mechanism by which members of Congress can request funding for specific projects in their home state that have been submitted for consideration by local government entities and nonprofits. Funding for projects, if approved, would be distributed during FY23 (October 2022 - September 2023).

BASICS

Deadline: Our office will accept requests for Congressionally Directed Spending until **APRIL 8, 2022**. Requests must be submitted through the form on our website, which can be found on a form on our website (Link: <https://forms.gle/PoQhBgbVRo4C4htH7>). **We will not consider requests received outside of the form.**

Accounts: A list of the subcommittees that we anticipate will accept CDS requests can be viewed at the end of this document. The list contains minimal changes from the FY22 CDS process.

Supporting Documentation:

- **Itemized Budget:** The itemized budget you provide should be detailed as possible, and should account for all of the money you are requesting.
- **Letter of Support:** All projects must be submitted with at least **one** and **no more than two** letters of support. Letters should come from either a state or local government or a community leader representing local support for your request. Letters of support beyond two will not be considered.

ELIGIBILITY

Submitting organizations must be either **not-for-profit entities** or **government organizations**. Projects must fit within an account of one of the Appropriations Committee subcommittees accepting requests. Requests with the best chance of success should be:

- **Shovel-ready:** Projects should be ready to begin as soon as funding has been received. Given the uncertainty surrounding passage timing of an FY23 appropriations package, projects should be able to begin at any date.
- **Clear and reasonably budgeted:** Itemized budgets must be as detailed as possible, and should indicate whether portions of the project could be completed independently of other portions if the project cannot be fully funded.
- **Self-sustaining:** CDS projects should be able to be either completed or put on a sustainable path with one round of funding. While we will consider all projects, CDS projects should only depend on receiving money in FY23, and should have an ongoing impact on the community even after the funding has been used.
- **Beneficial to the wider community:** Each project will be assessed based on its demonstrated level of positive impact for the community, with an emphasis on serving longstanding unmet needs.

FAQ

Can I submit projects to more than one member of Congress?

Yes! You can submit the project to every member of the congressional delegation who represents the location where the project will be implemented AND is accepting requests. If you submit the same project to multiple members of Congress, we ask that your application be identical and that you note the other members to whom you have submitted your project in your application.

To which account should I submit my project?

An “account” is a funding bucket from which federal funds are disbursed. To be eligible for funding your project must align with an account that is accepting CDS requests. A list of eligible accounts is available at the end of this document. When applying, please select the account that best fits the focus of your project. If your project does not fit within an account, even if it aligns with all of the other criteria above, it is unfortunately ineligible. If you are confused as to which account your project may fit within, please don’t hesitate to reach out.

Can I have a meeting to discuss questions specific to my proposal?

Yes; our office is happy to meet with organizations to answer questions specific to project proposals. If you anticipate needing to discuss your project, please reach out as soon as possible as we will not be able to extend our submission deadline.

Can I amend my submission after the deadline?

You should not plan on being able to make changes to your submission after the submission deadline. However, if minor mistakes are made, please let us know as soon as possible and we can work with you to try to correct them. Major changes may not be accepted depending on how close we are to the subcommittee’s submission deadline. Once projects are submitted to the Appropriations Committee there will be no further opportunity to change them.

If your office submits my request to the Appropriations Committee, am I guaranteed funding?

No; our office submitting a project is only the first step in the process. After we submit our requests to the Senate Appropriations Committee, committee staff will review our requests and decide what to include in the final package.

If my project is included in the FY23 appropriations bill, when should I expect to receive the funding?

Funding will only be disbursed after Congress passes the FY23 appropriations bill. Upon passage, the funding agency will reach out to the project’s point of contact and provide a follow-up application. This application will need to be approved by the agency before funds are distributed.

Can funds be reimbursed retroactively?

No, CDS funding cannot be used retroactively. For that reason, projects should not be dependent on receiving the funds by a certain date.

Where should I submit water infrastructure projects?

Water infrastructure (both drinking water and wastewater) related projects should be submitted to the Interior subcommittee, **NOT** the Energy & Water subcommittee.
