## Update on the North Foothills Bikeway Feasibility Study

Last fall we got word that the County was awarded the DRCOG grant for the study. Last week the County Commission signed the IGA with CDOT and we are now waiting for CDOT to return their signed copy. The signed IGA allows us to move ahead with signing the MOUs for the matching grant funds from C4C, OSMP, and Parks and Open Space.

Before I go any further into my update I need express my appreciation for our partners in OSMP, Parks and Open Space, C4C and Lyons. We would not be moving ahead with this project without each of you.

I have started to work on a rough draft of the Request for Proposal (RFP) in order to hire a consultant to do the study. Once I have this in not such a rough draft form I will send it for your input. Our final draft will then need to be approved by CDOT before releasing it.

Please contact me with any questions or comments you have on this project.
