Subject: Cemex application for permit extension

Dear Ms. Davis,

Please convey to the Lyons Board of Trustees that I hope they will unanimously and vigorously oppose the Cemex permit extension for the Dow Flats Quarry, and all the incentives the company is offering to Boulder County.

It will render the ambitious climate change goals the county and our town have established impossible to achieve. I am not convinced the company can afford to continue to operate the cement plant by trucking and railroading in the necessary materials. Continued plant operation will continue to massively pollute our town's and county's air with silica dust. And I do not believe the company has been a good neighbor: they have repeatedly refused to upgrade the plant operations to limit carbon and silica dust emissions to counter the massive contributions to climate change and poor air quality.

Thank you for passing on this comment to the BOT.
