Subject: cemex

Hello,

The public officially knows that Eric Estrada admitted that Cemex knowingly violated state and federal regulations on July 12, 2022 at 3:57 PM. Cemex should be shut down without any options TODAY because they have been doing illegal exhaust activities for years! If the EPA doesn't care than the citizens need to. This plant needs to be shut down immediately!

"Where's the plant? I can't see it through the fugitive carcinogenic dust. Cemex has a hotline for their comonplace fugitive dust emissions that violate state and federal environmental regulations. These events are due to intentionally negligent decisions made at the plant, be it untimely maintenance or worn out equipment that is not renewed. We all need concrete and I don't mind responsibly produced cement products, but if the plant can't and won't comply with clean air standards, it has become a public nuisance and is a health risk to Lyonsers and everyone in St Vrain Valley. The plant manager, Eric Estrada, admitted to me this week that their dust release on Tuesday, July 12, 2022 at 3:57 pm was facilitated by knowingly violating state and federal regulations. Report all fugitive dust events to the Cemex Hotline at (301)747-3730. Take photos of the event and note the time of the occurrence. Those photos need to be sent to the state EPA with a statement. All kiln dusts are required to be wetted and pug-milled before leaving the building, but this is not happening. It's cheaper to have the wind dispose of toxic waste than to operate responsibly."
