Subject: CEMEX Comments from a Lyons, CO Resident

To Whom It May Concern,

I am writing to share my concerns about the proposed plan allowing the CEMEX plant in Lyons, Colorado to operate for an additional 15 years. I am very much *against* this measure and request the plant be held to its commitment of closing the Down Flats Mining Pit in Fall 2022.

The CEMEX plant is the largest greenhouse gas emitter in Boulder County, with environmental issues and pollution leading to disciplinary measures in the recent past. The plant provides little value to the community as it is not a major employer in town and has only a few local Lyons residents on staff. Additionally, there are negative consequences to the plant's operation, including diminished air quality, detrimental impacts on local wildlife from the plant, and light pollution. I also have major concerns about a 60-year-old plant of this size continuing to operate in this capacity. This is not a clean, efficient business doing its best for the environment and the local community.

For these reasons, I would like to see Boulder County *decline* the 15-year extension proposal. I would also like further research to be done into the environmental impact of the plant. Further, as its closest residents and stakeholders, the Town of Lyons must be centrally involved in the future of this plant.

Thank you,
