Subject: RiverBend

I am writing in regards to showing my support for all things good for RiverBend changes. Please consider these changes as meeting our community's needs and opportunities for growth. Sarah and Chris Legh have created a beautiful opportunity to bring people together for the better of the world. We have so much sadness in this world that music, joy, and laughter is what we need more of. Riverbend property will only be served to allow more of good to be brought into our lives and community. Sarah and Chris are so thoughtful and considerate of nature, human connections and are the most respectful people we know. Please consider everything they have to say in order to move forward to continue to build on the goals of Lyons.

Be well and thank you for your time
