My name is Dan Bruckner and I am co-owner of A Spice of Life Catering and Events based in Boulder. I have worked at Riverbend as a vendor since it's inception as a venue. I have also attended many community based events as a guest. It is a wonderful property and I was very excited to hear about the enhancements that the new owner, Chris Legh, has planned, especially the addition of indoor space. It provides a convenient backup plan for inclement weather, it allows for additional events outside of the normal Colorado wedding season, and should decrease the noise that I know has been a contentious topic for years. I think it's a wonderful thing that a Lyons resident wants to put so much time, energy, and investment into this property. Riverbend is another gem, just like Planet Bluegrass, the Lyons Farmette, and Lionscrest Manor, and I believe the new owners should be given the best chance at success.

Sincerely,

Dan Bruckner
