Hello-

I am writing, ahead of the Oct. 21st BOT meeting, to express my opposition to rezoning or developing the triangle

Lot off of McConnell Drive. This is a bad idea for many reasons including the traffic congestion and noise it will cause, the disruption to the wildlife at the ponds (deer travel through there daily), the intense density added to the area, the safety of students traveling to and from the high school, and the impact this would have on our insurance costs and the impact it would have on our home values. This should not be considered.

Thank you,

Jane McRae
