Dear Mayor Rogin and Board of Trustees Members

I'm writing to give comment on the zoning of the triangle lot in town near the ponds.

We all care about affordable housing. We need to make sure it is designed and developed in an appropriate place. Taking any open lot and zoning it for housing is foolish and will cost us in the long run.

This little parcel of land needs to be zoned park. Part of the lot is floodplain. No development should be placed in the floodplain. With the increased risk of natural disasters we are all more vulnerable to catastrophes. Please help protect the citizens of the town.

This area is part of the ponds natural area and belongs to nature where it can be a place of quiet recreation. We have been using it in this way for years. Please do not destroy this small habitat used by people and other wildlife. Thank you

Be Well

Marianne

“Without the soaring birds, without the great forests, the free-flowing streams, the sight of the clouds by day, and the stars by night, we become impoverished in all that makes us human.” – Thomas Berry, The Great Work
