Subject: Summit Housing Development Review Public Comment

I unfortunately will not be able to attend Tuesday's meeting. I would like to express my concern about traffic during construction and after along Mc Connell drive. There has already been concerns about people speeding there. It will be necessary to install speed bumps and stop signs to prevent major issues and possible injuries. I would like to know the plan of how this is being addressed Who will be responsible and liable for these potential problems and costs

Thank you for bringing attention to my concerns at this meeting Jan Anderson
