Subject: NO on current Hotel plan

I am writing to voice my opinion as a Lyons resident about the hotel plans.

Please consider scaling down their plan, it's way too big and not really in line with the vibe of the town at all. There shouldn't be more than two stories, and there should be a maximum room limit and minimum parking requirement to reduce the impact on our tiny town. The lack of parking and huge hotel is really a mistake. There should be reasonable limits on downtown development including height and impact. I urge you and the rest of the board to do what's right and require the hotel to fit in to our town, if it's built at all. We shouldn't have to change our way of lives to accommodate this unfortunate monstrosity.

Thank you for considering this.

Best, Liz Forster
