

Dear Town of Lyons,

As a business owner and resident, I am thrilled for the opportunity for us to have a hotel in Lyons. We have frequent business travelers coming to town and family who would have loved the opportunity to stay in town to experience Lyons rather than Longmont or Boulder. As a frequent business traveler myself, I seek out opportunities to stay in towns such as Lyons to explore to make the most of my corporate travel. I like to dine locally and shop locally.

It's not everyday that we get an opportunity such as this that we have a motivated and capable party willing to come in our town and make something special like this hotel. Putting something like this hotel project together is an enormous undertaking and not something that comes along every day. We will see so many benefits to this asset in our community. Our small businesses struggle and our restaurants struggle. Us locals can only spend so much locally to keep these businesses open. It will provide jobs so we don't have to worry about our high school kids driving to Boulder at night. It's an opportunity for this town to thrive and not just survive.

Yes, there are lots of details still yet to be determined, but the sum of all parts is don't discourage this project to go away. I believe this is a unique and once in a lifetime opportunity for this town.

Sincerely,

Jodi Scott, Green Goo
