**Subject:** Support of the Hotel Project

Good evening,

I am writing to express my strong support for a hotel project in Lyons.

As a Lyons resident and business owner, I have come to realize the unique benefits a project of this scale will bring to Lyons. It will help to support local businesses, both through providing lodging to vacationers, visiting families, and business travelers and by expanding local job opportunities. It will become a pillar of the local economy and an incubator of local growth, helping to sustain businesses through the lean winters (local residents can only spend so much money at our shops and restaurants).

While there will be details to be worked out through the design process, but we should not miss this opportunity. It is a rare opportunity to have motivated and capable individuals who are willing to undertake such a daunting and sizable project. When I had questions about the project, I reached out to Edna and Anyes with questions. It was easy to realize the amount of thought, intention, and research they have put into this project. Their intentions are to benefit the greater community. This is truly a watershed moment for Lyons, and it is not to be missed.

I urge the PCDC to embrace and approve their application.

Thanks for your work,  
Chris
