### Earth Art

Earth Art is an art movement in which landscape and the work of art are inseparably linked. Children especially love searching for objects in nature and using them to create something new, purposeful and beautiful. In this class, we will be creating a collaborative work of Earth Art using only found objects in nature. Our work will remain for others to enjoy until the wind, rain and decomposition take it back to the earth. Afterwards, we will each paint our own canvas using Natural Earth paints. The pigments in these paints are all completely non-toxic and made from 100% hand collected powdered clay and earth.
