# CALLING ALL LYONS AREA RESIDENTS! FIRE IS COMING: WHAT SHALL WE DO?

## COME TAKE A SEAT AT THE TABLE

Come participate in a community conversation on forest health and fire mitigation! These meetings will be hosted by the St. Vrain Forest Health Partnership, coordinated by the Left Hand Watershed Center, which is a diverse collaborative with more than 100 community and stakeholder representatives working to restore landscape-scale forest health and resilience throughout the St. Vrain Watershed. Participation from land owners, managers, and community residents is vital to this work, and we want to hear about what community members envision for the forests that surround you. We will take note of your insights, values, and priorities for forest management, which we will then incorporate into our planning efforts.

**TUESDAY, JUNE 7TH, 2022**

**DOORS OPEN AT 5, MEETING FROM 5:30-7:30PM**

**LYONS FIRE PROTECTION DISTRICT, 251 BROADWAY**

**REGISTER AT: [CALENDLY.COM/WATERSHEDCENTER/LYONS](https://calendly.com/watershedcenter/lyons)**
