

## WHAT'S THE SCOOP ON POOP?

Dog feces is not only unsightly, it can contaminate storm water run-off, ending up in our reservoirs, creeks, and other water supplies.

Feces release harmful amounts of nitrogen fertilizer to the soil, which may encourage the spread of noxious weeds. On or off- leash, owners must scoop the poop!

## FINES/PENALTIES

- Dog off-leash & unlicensed dog: up to \$500
- Vicious animal charge: up to \$1000 and/or up to one year in jail.

## PROTECT YOUR PET

## PUPS IN THE PARK

Town of Lyons parks, trails, and open spaces host oodles of visitors each year, many with tails and four legs. Dog owners share the land with wildlife and other recreationists. Dog regulations help to protect these users and the natural environment. Parks that allow you to bring your dog *require* that it be leashed, unless in a designated off-leash area.

### But My Dog Listens!

### Does He still need a leash?

**Yes! Many dogs, even the most obedient, chase and threaten wildlife. It's a natural instinct!**

- ◊ Dogs can become aroused visually, by a scent or noise and may scare birds or other wildlife away from their nesting, feeding, and resting sites.
- ◊ Lots of people are afraid of dogs—even friendly ones. Some fear being knocked over or bitten. *Never* assume people want to meet your dog!
- ◊ A leash protects your dog from accidents like becoming lost, injured by a fast moving bicyclist, or suffering from a painful or even fatal fall.
- ◊ Wildlife may bite or transmit disease to your dog, and your dog may digest poisonous plants. On a leash, your dog is less likely to encounter these dangers.
