2022 Year End Sales Tax Numbers

- 2022 receipts were up approximately 7.8% (\$128,000) from 2021
 - Note: The revenue received in November included a larger amount of prior year tax, penalties, and interest
- The Town accrued the sales tax received in January and February back to the 2022 fiscal year since this revenue was for 2022 sales
- The last quarter of sales tax receipts started to show a slow down in growth from 2021
 - This trend will continue to be monitored carefully as we enter 2023

Preliminary estimate

This table illustrates the approximate percentage of sales tax generated by local businesses vs. non-local businesses. The sales tax amount also includes the taxes collected on retail marijuana that are paid directly to the State and to the Town of Lyons.

Approximately 52% of the sales tax revenue received for sales in the month of December can be attributed to local businesses. Keep in mind that this amount is still a preliminary estimate. This percentage tends to fluctuate seasonally due to the summer sales tax months, including revenue generated through local festivals and weddings which contribute to the higher local sales tax percentages during those timeframes.
